

Internship smart food processing

 Uzwil

 temporary (6 months), 100%

 Start: upon agreement

Introduction

At Bühler, our cutting-edge technologies touch the lives of billions of people daily, meeting their fundamental needs for food and mobility. As part of our commitment to sustainability, we strive to reduce waste, energy consumption, and water of our customers' value chains by 50%.

To achieve this, we're offering an exciting internship project that goes beyond classical process technology and delves into the heart of smart food processing.

Diversity

Bühler is an equal opportunity employer and we value diversity and inclusion at our company, therefore, it's important that you match us and we match you. Regardless of your gender (m/f/d). We invite you to read more about our commitment to diversity, equality and inclusion on our website: <https://bit.ly/40QxJP6>

Tasks

- Explore: Join us on an exciting journey of discovery as you conduct laboratory research and analytics.
- Uncover Insights: Harness the power of advanced statistics to reveal the hidden stories within data.
- Innovate: Develop state-of-the-art machine learning models.
