

Working student - “Werkstudent” (f/m/d)

We are nexnoa, we empower and inspire the sustainable food future by creating the enabling technologies!

We are a team of experts in food science and extrusion technology, the main technology behind the ongoing food revolution for a more sustainable food supply chain, such as plant-based meat and sea-food, or zero food waste. Here, we bridge the gap between inspiring groundbreaking research and disruptive innovation by providing and working on a platform for highly dynamic, efficient and collaborative research and development. After years of R&D and business experience in this field, we know that this is the way to accelerate and drive the food industry's transformation towards a more sustainable, healthier and tastier way of life.

Do you want to support, inspire, but most of all enable the change? Join Us!

Your mission:

- You work closely with a team of experts in process engineering, food technology and science.
- You support the expert-team two days a week at developing and using new process engineering tools.
- You help to gather the relevant information, data or samples, and perform tests to create optimal and innovative solutions.

You:

- have a Bachelor's degree in Process Engineering, Food Technology, Food Science, Mechanical Engineering, Industrial Engineering, or similar.
- are confident in working independently and accurately.
- have very good English or German skills.

Start: ASAP/flexible, **Location:** Karlsruhe/DE, **Salary:** 840€/month, **Workload:** 15h/week.

Does this sound like somewhere you can make a lasting, positive impact?
